

Typical Properties

| | |
|--------------------|--------------------------------|
| Viscosity, SUS | 2752 |
| Viscosity, cSt | 160 |
| Viscosity Index | 512.5 |
| Flash Point | 561 F (294 C) 606 F (319 C) |
| Pour Point | 16 F (-9 C) |
| ASTM Color | 6.0 4.5 |
| API Gravity | 27.2 |
| TAN, mgKOH/g | 0.05 |
| Sulfur, mass% | 0.17 |
| CuStrip | 1B |
| Volatility, NOACK | |
| Billing Wt, lb/gal | 7.42 |

Note: The values shown are representative of current production and may vary within modest ranges.

Product (s) manufactured in the USA.

Always confirm that the product selected is consistent with the original equipment manufacturer's recommendation for the equipment operating conditions and customer's maintenance practices.
